

Practical 7

Implementing coding practices in Python using PEP8

The image shows a screenshot of the Google Colaboratory web interface. At the top, there is a header with the Colaboratory logo and the text "Welcome To Colaboratory". Below this is a menu bar with options: File, Edit, View, Insert, Runtime, Tools, Help, and a link "Cannot save changes". The main workspace is divided into two sections. The top section contains a code cell with a play button icon and the following Python code:

```
name = 'rajesh tyagi'
first_name, last_name = name.split()
print(last_name, first_name, sep=',')
```

The bottom section shows the output of the code, which is a single line: "tyagi,rajesh".
